

In the Claims

Cancel claim 13 and replace it with the following new claim 29.

~~29~~. A compound of the formula

wherein

Q is a group of the formula -CH₂-CH₂-, -CH=CH- or

R and R' are each independently C₁-C₄-alkyl;

R₁ is thienyl, phenyl, cyclopentyl or cyclohexyl; and,

X⁻ is a physiologically acceptable anion.--

Cancel claim 14 and replace it with the following new claim 30.

~~30~~. A compound in accordance with claim ~~29~~, of the formula

wherein

R is CH₃, [CH₂H₅] C₂H₅, n-C₃H₇, or i-C₃H₇;

R' is CH₃; and,

R₁, Q and X⁻ are as defined in claim ~~29~~.--

Amend claims 15, 16 and 23-28 as shown below.

362

³
C3
--15. (amended) A compound in accordance with claim [14] ²20 wherein R₁ is thienyl.--

⁴
--16. (amended) A compound in accordance with claim [14] ²20 wherein X⁻ is Br⁻ or CH₃SO₃⁻.--

⁸
--20. (amended) A compound of the formula

wherein R₁ is 2-thienyl and A is [3α-(6β, 7β-dehydro)-tropanyl methobromide]
3α-(6, 7-dehydro)-tropanyl methobromide .--

¹⁰
--22. (amended) A compound of the formula

C5
wherein R₁ is [cyclopropyl] cyclopentyl and A is 3α-(N-isopropyl)-nortropanyl methobromide.--

¹¹
--23. (amended) A method for treating chronic obstructive bronchitis which comprises administering, by inhalation, to a subject suffering from the same, ³ ³ ⁴ a therapeutic amount of a compound in accordance with claims [13] ²⁹29, [14] ²⁰20, ¹⁸18, ¹⁶16, ¹⁸18, ¹⁹19, ²⁰20, ²¹21 or ²²22.--

¹²
--24. (amended) A method for treating slight to moderately severe asthma which comprises administering, by inhalation, to a subject suffering from the same, ³ ³ ⁴ a therapeutic amount of a compound in accordance with claims [13] ²⁹29, [14] ²⁰20, ¹⁵15, ¹⁶16, ¹⁸18, ¹⁹19, ²⁰20, ²¹21 or ²²22.--
